UV Angel Adapt

## CLEAN AIR TECHNOLOGY

# HELP PROTECT YOUR BUILDING OCCUPANTS WITH UV ANGEL

As businesses come back online, we must think critically about the design and safety of the buildings where we live and work. Employees want to know they are returning to healthy environments. Those in commercial and residential real estate and development can play an important role in creating healthier buildings for tenants and patrons by adding UV Angel's pathogen control technology.

UV Angel's UV-C technology automatically treats air and surfaces for harmful pathogens – adding an extra layer of protection. **At UV Angel, our passion is your health.**

## REDUCE THE RISK OF EXPOSURE

In concert with standard cleaning protocols, CREs are mitigating the risk of exposure for occupants by incorporating UV Angel technology UV Angel into commercial, residential and retail buildings.

### Creating a Healthy Environment

- Tailor workspace layouts
- Enforce social distancing
- Add physical dividers
- Integrate ceiling mounted UV Angel Air systems
- Utilize UV Angel Adapt to monitor surface contamination levels
- Reduce the spread of infectious aerosols between people

Research has shown that reducing contamination in the air also **reduces viruses, fungi and bacteria on surfaces.**

The UV Angel Air results showed laboratory **elimination rates** up to **99.99%**

# AIR & SURFACE TECHNOLOGY

## Simple Solutions with a Big Impact

### Benefits of Use

CONTINUOUS  
MONITORING

ADDED  
PROTECTION

IMPROVED COMFORT  
& SATISFACTION

## AIR TECHNOLOGY

### UV Angel Air Series

UV Angel Air integrates into existing or new construction in-ceiling lighting to create a seamless and effective air treatment system.

#### How it Operates

The patented UV Angel Air works by drawing contaminated air containing viruses, bacteria and fungi into a sealed UV-C chamber where they are quickly neutralized. Clean, treated air is then circulated back out into the room. The UV Angel Air recirculates a 100 sq. ft. room, four times every hour.

## SURFACE TECHNOLOGY

### UV Angel Adapt Series

Keyboards and computers are essential tools for any office space, but a shared space can make these tools hazardous.

Reduce the risk of spreading viruses and bacteria with an intelligent, automated UV-C that safely and continuously detects and neutralizes surface contamination.

#### How it Operates

The moment a potential threat is detected on surfaces, the UV Angel Adapt neutralizes it at a cellular level, killing at rates greater than 99%. The platform is designed to operate hundreds of times throughout the day, providing a disruption-free workflow.

TREAT

COMPLETE

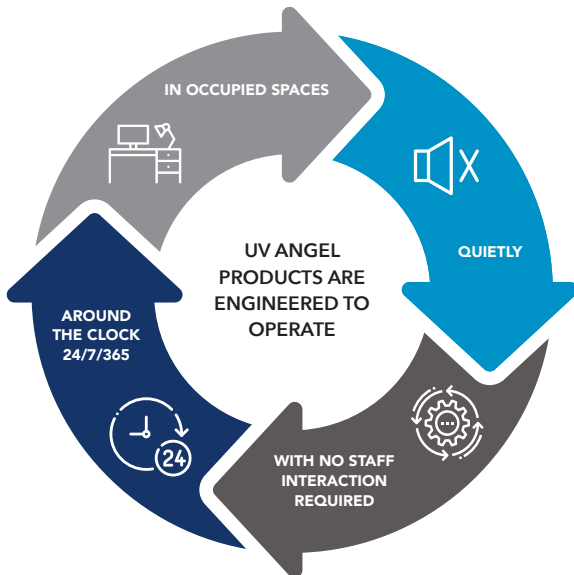

# A TOTAL APPROACH

Installing the **UV Angel Air** and **Adapt Series** into commercial real estate buildings can give tenants the confidence and peace of mind to reopen their doors.

## Data-Driven Analytics - Powered by UV Angel Analytics

UV Angel Analytics puts powerful data into the hands of property managers. Our proprietary platform seamlessly communicates data to a cloud-powered web administration platform and delivers critical insights.

## Features

- Lightweight, easy installation
- Multiple mounting options
- Energy efficient
- 0-10V dimming
- 120-277V
- ETL listed

## About UV Angel

UV Angel uses years of advanced research and development in ultraviolet light to make the environments around us measurably cleaner and safer by eliminating harmful pathogens. Fully automated, patented and proven safe, our UV-C technology monitors and cleans the surfaces we touch and the air we breathe. UV Angel's technology is complemented by a proprietary data analytics platform that delivers critical insights and strategic advantages to leaders in healthcare, food service, corporate, education and many more industries.
