

UVANGEL
Pathogen Control Technology

Next-Generation Pathogen Control for Schools, School Districts, Colleges & Universities

Bring Back In-Person Learning — With Confidence.

The UV Angel Difference

- ✓ 24/7/365 treatment. UV Angel products are continuously treating your education environments.
- ✓ 99.99% effective against viruses, bacteria, mold and fungi.
- ✓ Safe for use in occupied spaces; chemical & biproduct free.
- ✓ Our IoT and analytics platform delivers all the data you need to manage your facilities and infrastructure.

UV Angel Delivers Clinically-Proven Pathogen Elimination At The Source

How it Operates

The patented UV Angel Air draws contaminated air containing viruses, bacteria and fungi into a sealed UV-chamber where they are quickly neutralized. Clean, treated air is then circulated back into the room.
